Amna Shan

Software Engineer

I am a motivated and detail-oriented software engineer with a strong interest in software quality assurance, project management, and mobile app development. I have hands-on experience building a complete charity application using Flutter, Dart, and Firebase, where I managed both the front-end and back-end development. Through this project, I gained practical skills in problem-solving, testing, documentation, and feature planning. I am quick at learning new technologies, adaptable, and committed to delivering high-quality work. I enjoy working in collaborative environments, communicating clearly, and organizing tasks efficiently.

Experience

○ 2023 - 2024

Allied Tajar ERP Software Company

Graphic Designer

Worked as a Graphic Designer, where I was responsible for designing social media posts, banners, logos, and advertisements. Created visually appealing and professional designs to support branding and marketing activities, while meeting deadlines and maintaining design quality standards.

○ 2023-2024

Allied Tajar ERP Software Company

Social Media Marketing

Worked as a Social Media Marketer, managing and creating content for social media platforms. Planned and posted promotional content, helped improve audience engagement, and supported brand growth through consistent and effective social media strategies.
