PROFILE

Computer Science and Mathematics graduate from Cyprus with a strong interest in software development. Proficient in HTML, CSS, Sass, TypeScript, JavaScript, React.js, React Native and Next.js. Currently expanding expertise in backend development, specializing in writing endpoints using Xest.js and Express.js frameworks. Skilled in designing and implementing MySQL database tables. Strong understanding of the software development process and ability to work in an agile environment. Highly motivated with strong analytical skills and attention to detail. Eager to contribute to the company's development and personal professional growth in the technology-driven world.

WORK EXPERIENCE

Junior Full Stack Developer
05/2023-currently

CyprusCodes , Cyprus

- Specialized in using React.js, React Native, and TypeScript alongside Material-UI (MUI) to develop dynamic web and mobile applications.
- I am trained in backend development and proficient in writing efficient endpoints while seamlessly integrating them with backend systems.Specialization is in using Express.js and MySQL database for backend development.
- Collaborate seamlessly with a dedicated team, fostering effective communication and teamwork to ensure the successful development of both web and mobile projects.

Software Developer
04/2023-currently

Kaner Group of Companies , Cyprus

- Worked onsite as a software developer for Kaner for a month, contributing to developing a project utilizing React.js, Sass, TypeScript, and Strapi CMS..
- Transitioned to freelancing for Kaner, continuing to remotely contribute to the ongoing project.
- Leveraged expertise in React.js, Sass, TypeScript, and Strapi CMS to implement key functionalities and deliver high-quality solutions.
- Maintained effective communication with the client, providing regular updates and addressing any concerns or feedback.

Software Developer Intern
2022-2023

Archis Academy , Eskisehir,Turkey
- US Based Company

- Developed and implemented user-facing features using cutting-edge technologies and tools such as TypeScript, React JS, HTML, CSS SASS, Next JS, and JavaScript.
- Wrote reusable code and libraries to enhance the scalability and maintainability of the codebase, ensuring high performance and reliability of the applications and services.
- Contributed to a hands-on, collaborative environment that fostered innovation, creativity, and continuous learning, working closely with cross-functional teams to deliver exceptional results.
- Maintained and improved existing codebases, leveraging best practices and industry standards, and peer-reviewed code changes to ensure code quality and adherence to coding standards.
- Translated UI/UX design wireframes and mockups into actual code, implementing responsive and intuitive user interfaces and experiences that met or exceeded design specifications.
- Worked with REST APIs and web services, integrating external data sources and services, and developing server-side functionalities that optimized the performance and reliability of the applications.
